### Summary of Experience

I have 7.10 years of experience in various domains like Banking, digital marketing & healthcare. My core forte is Android, but I have worked on both frontend and backend using technologies like Angular JS, Spring & Hibernate. I have also worked on NoSql technologies like CouchDb which offers in built sync mechanism with conflict resolution. I provide end to end Omni channel experience to clients as per requirements. I like building products. Love to teach & learn. [Looking for an opportunity at New South Wales, Australia \(State sponsored PR holder\).](#)

### Education

Bachelor of Engineering, Information Technology, Mumbai University, 2011

### Certifications

Google & Udacity's Android Developer Nanodegree, Udacity's Self Driving Car Nanodegree (Ongoing)

### Technical Skills

Strong: Android, Kotlin, BackBase, CouchDB, Building voice actions with Home  
Knowledgeable: Angular JS, Spring, JPA, Hibernate, HTML, CSS, SQL, Oracle, Python, Machine Learning, core PHP, RxJava /RXKotlin, observables  
Methodology: Agile using Jira & Pivotal Tracker, SCRUM, Kanban boards.  
Tools: Jenkins for Continuous integration, Burp Suite for network security, J-meter for load testing, GIT for version control.

### Work Experience -

#### Apr 2019 – Present, Frollo Sydney, Australia

- I work on an app for Volt bank, build on top of the Frollo SDK, so my major chunk of work here includes having an aesthetic UI.
- The app allows you to link your bank account, view your transactions, expenses set savings goals.
- I mainly work on the frontend of this application, although I have worked parts of the frollo SDK and app as well.

#### Jan 2019 – April 2019, Telstra via Luvo (contract). Sydney, Australia

- Working on Telstra's 24x7 app. I worked mainly on their messaging module, as well as redesigning the app modules.

### Indian Experience - 6 years

#### OCT 2015 – OCT 2018, Tata Consultancy Services. IT Analyst, Mumbai

- Leading a team of 7 developers to build a Banking application (HDFC). [App has 10M+ installs & 3.9 \\* rating.](#)
- Built a hybrid app using phonegap for Sony Picture Entertainment's Digital windows project.
- Built, developed websites (backend and frontend) for Sony Picture Entertainment's SmartR project, SOAR

[For complete Indian experience view detailed resume.](#)
